BY THREE YEARS OLD, MOST CHILDREN ARE ABLE TO:

Gross Motor Skills:

Climb, walk up and downstairs with alternating feet; kick a ball; run; bend over easily without falling

Fine Motor Skills:

Make up and down, side-to-side and circular lines with a pencil/crayon; turn pages of a book; hold a pencil in a writing position; screw and unscrew jar lids

Self Help Skills:

Make simple choices; wash hands independently; get snack out independently

Language Development:

Follow one and two-step directions; recognize and label almost all common objects and pictures; use four to five word sentences; state own name and age on request; use pronouns (I, you, me) and some plurals (cars, dogs, cats); be understood by unfamiliar listeners

Cognitive/Pre-academic Skills:

Match objects to pictures; demonstrate good pretend play skills; sort objects by shape and color; complete puzzles with at least four pieces; understand number concepts up to "two"

Social Development Skills:

Imitate adults and peers; take turns in structured play/games; understand the concept of "mine" and "his/hers"

Performance Key

M - Meets expectations

P - Progressing towards expectations; emerging

R - Requires additional practice
