BY FIVE YEARS OLD, MOST CHILDREN ARE ABLE TO:

Gross Motor Skills:

Hop and stand on one foot for at least five seconds;
 manage stairs (up and down) without support; kick a ball forward,
 throw a ball overhand; catch a bounced ball most of the time; move in
 forward and backward directions with ease

Fine Motor Skills:

Copy some simple shapes; draw a person with two to
 four body parts; begin to develop scissor skills; begin to copy some capital letters

Self-Help Skills:

Make choices independently; wash hands independently; get snack out independently

Language Development:

Demonstrate some basic rules of grammar; speak in
 five to six-word sentences; understood by unfamiliar peers/adults,
 tell stories and events of his/her day

Cognitive/Pre-academic Skills:

Correctly name most colors; understand the concept of counting and
 may know a few numbers; begin demonstrating some problem solving skills;
 follow a three-step request/direction; recall parts of a story;
 understand the concept of "same" and "different"

Social Development Skills:

Cooperative in a variety of play activities with peers;
 demonstrate well-developed pretend play skills; demonstrate
 increased independence in all daily tasks

Performance Key

M - Meets expectations

P- Progressing towards expectations; emerging

R- Requires additional practice
